

Enlarged Plans of the Three Key Areas

Block outlines are parcel boundaries; public space, primary streets and Report Card Kiosk positions are located on the plan (positions indicative).

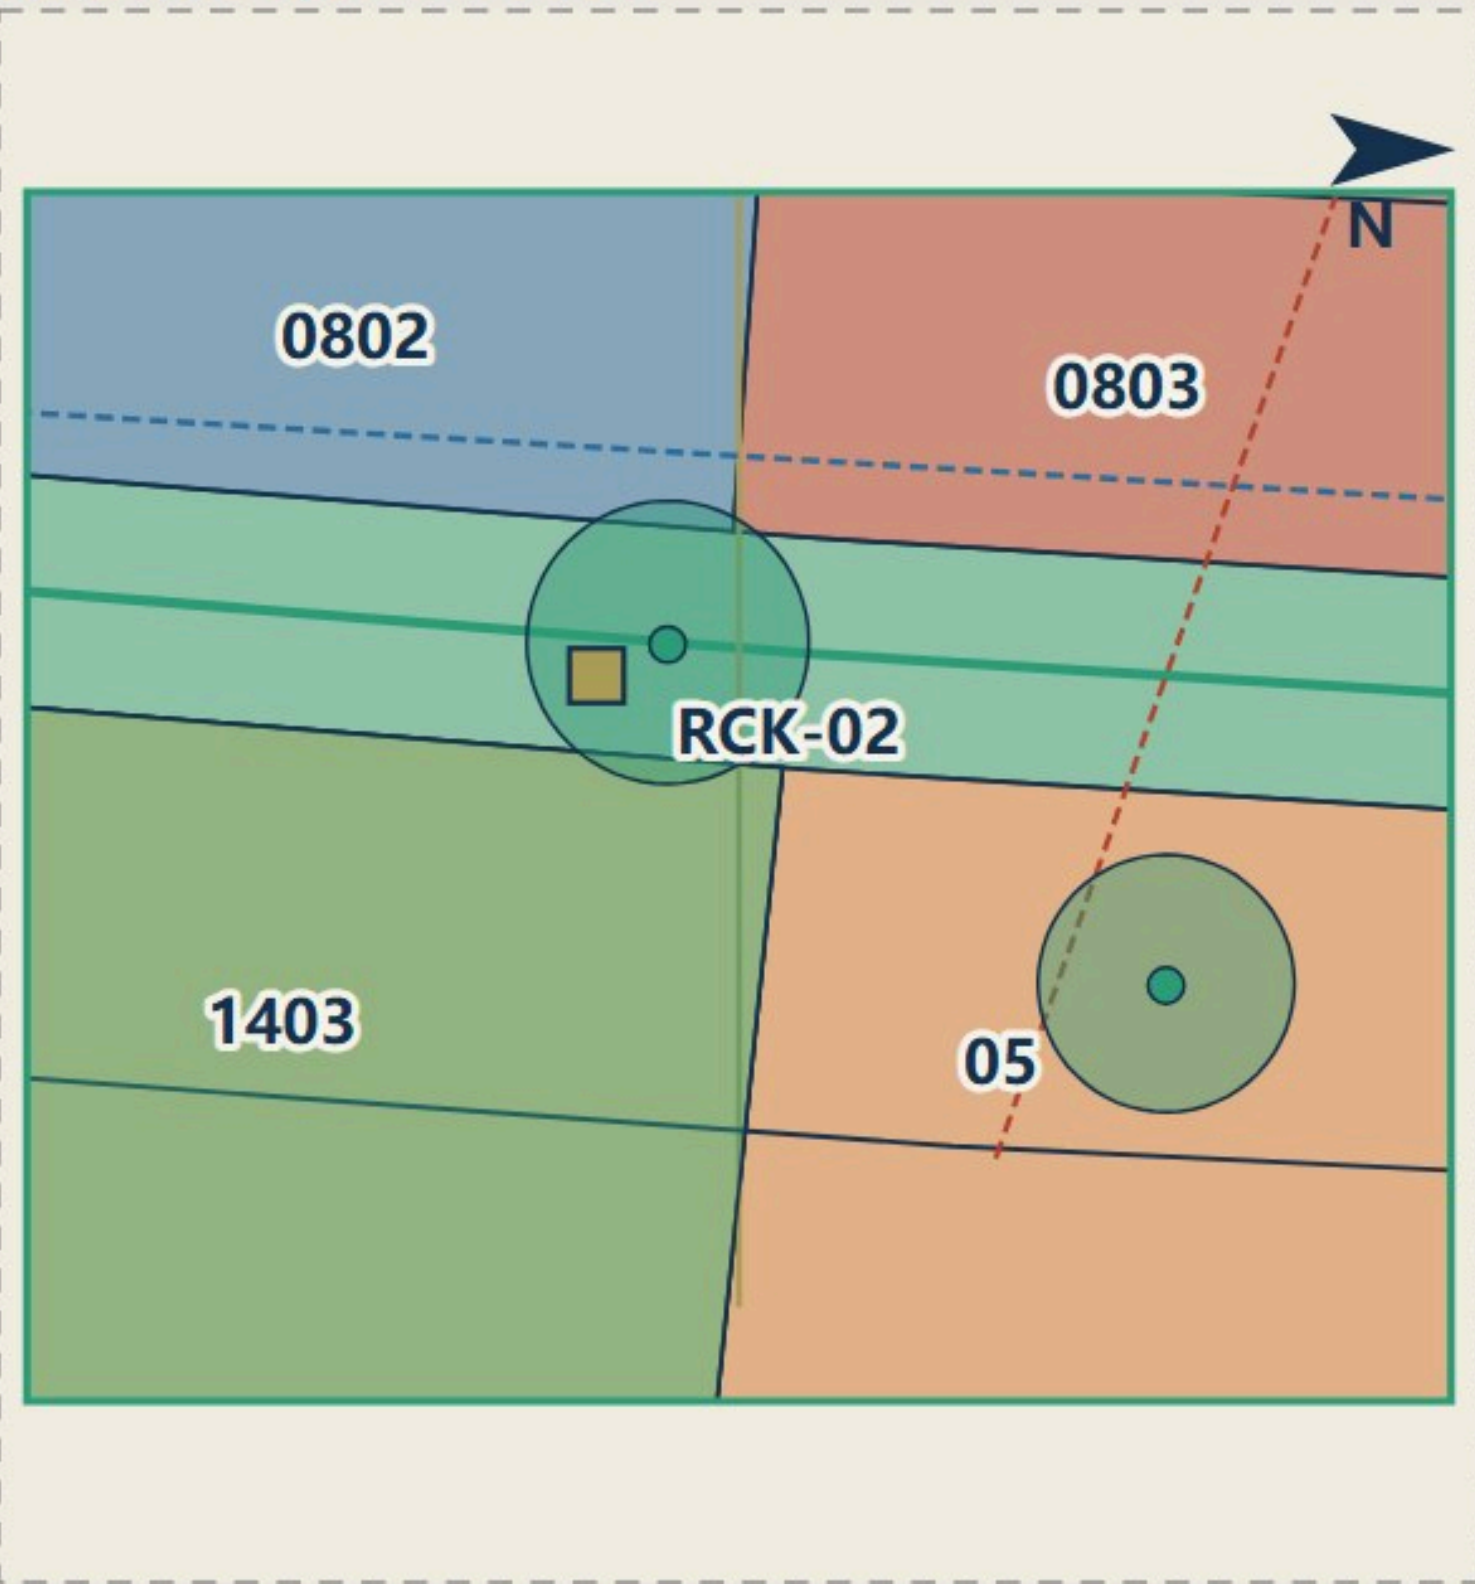

智源台 Origin Terrace

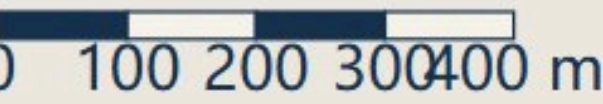

Area 192.92 ha

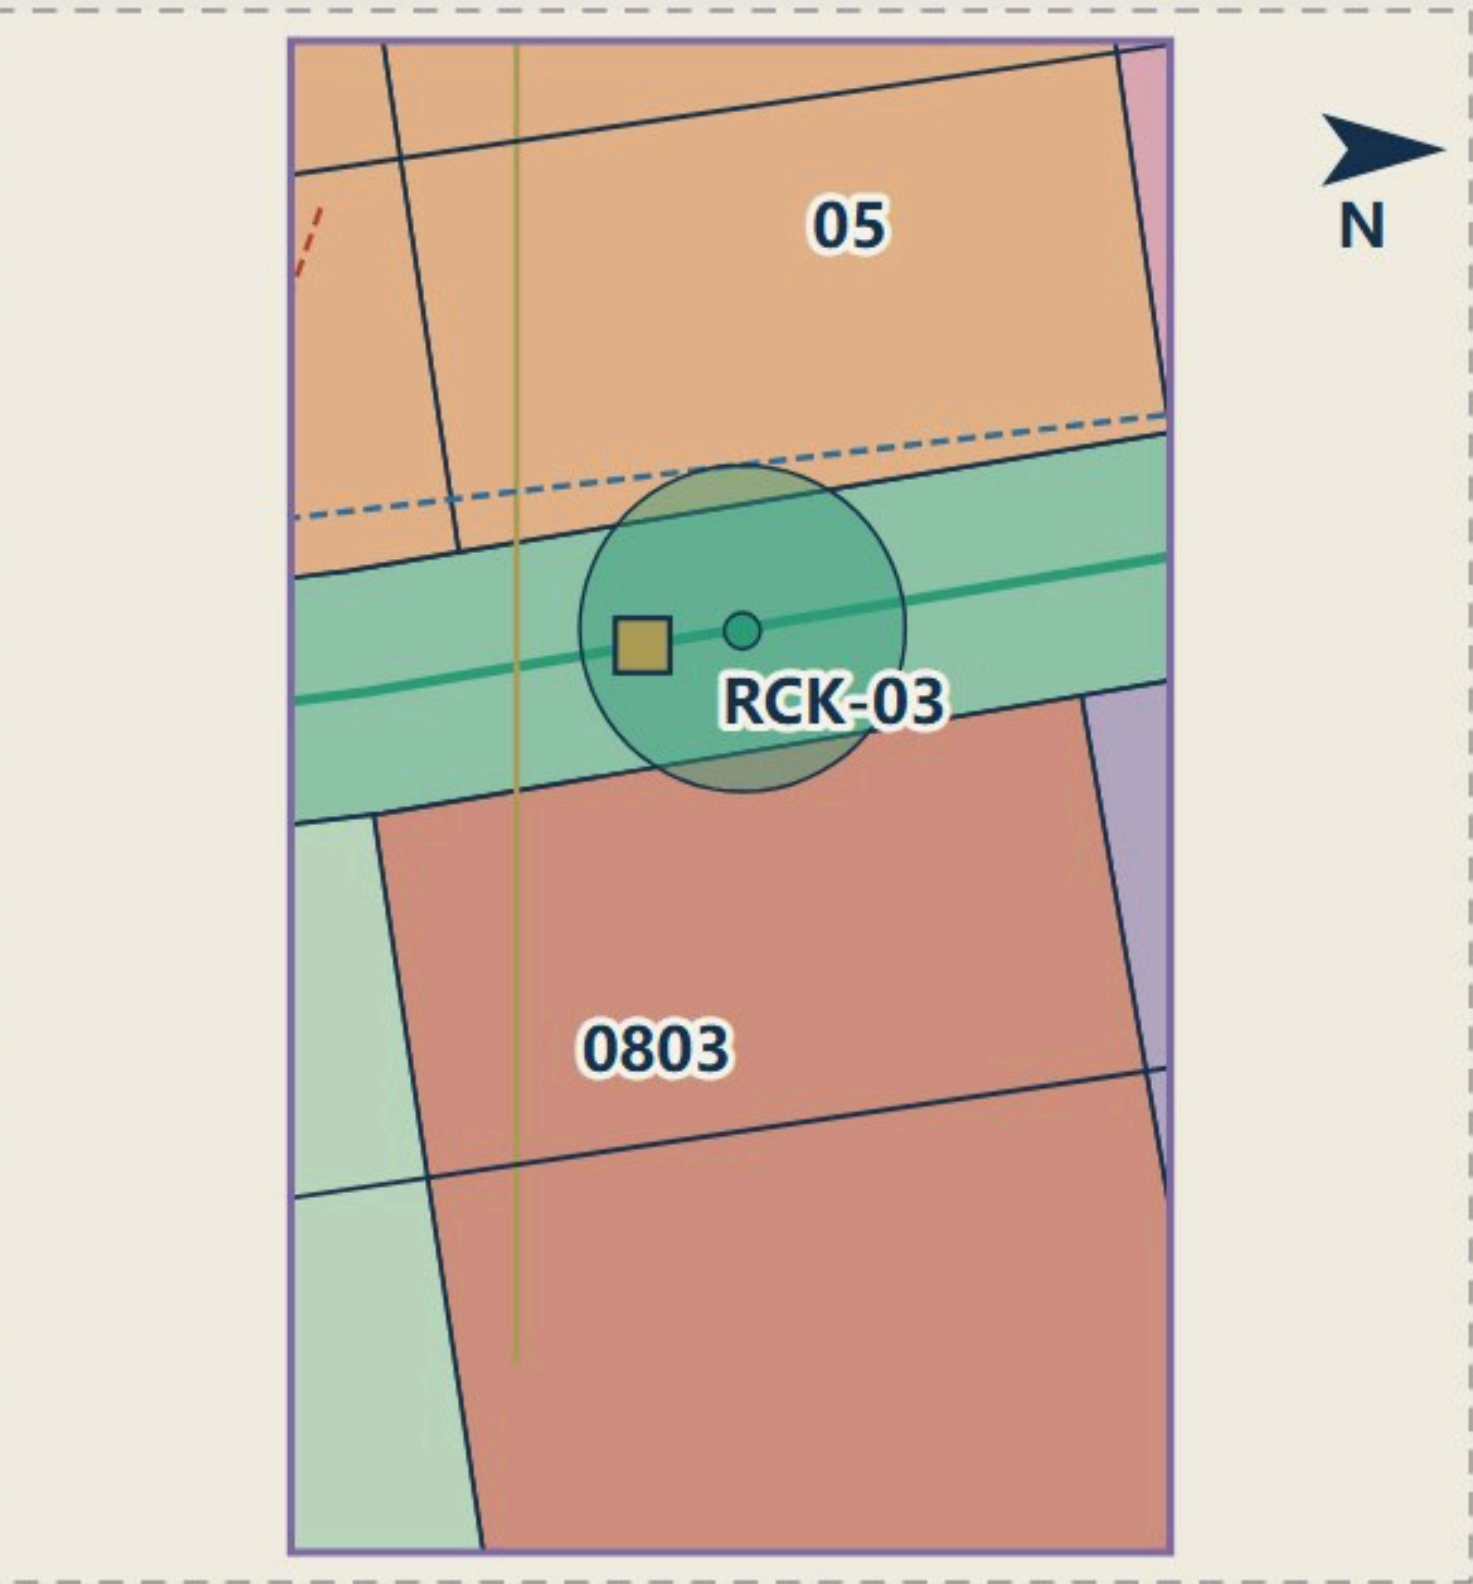

原点坊 Origin Works

Area 104.32 ha

智汇钟 Bell Hub

Area 72.05 ha

Block outline (parcel) Public space node Primary street Report Card Kiosk

Block outlines are labelled with their land-use code; kiosk positions follow the deployment table in proposal.md.

Zhongzhiyuan (193 ha)

? Blocks: ZZ-A (Frontier Lab), ZZ-B (Incubation), ZZ-C (Talent Housing), ZZ-D (Service), ZZ-E (Green Space).
? Concept Guidelines: FAR 1.6?3.5, Height 24?60 m, Building Coverage ?35%.
? Public Anchor: Renzi Terrace memorial + Qinghe Smart Station TOD + RCK-01 Kiosk.
? Mobility: Slow mobility density 30.0 m/ha, length 5,791 m.

Beijing AI Origin Works (104 ha)

? Blocks: YD-A (Open Source Hall), YD-B (Campus Link), YD-C (Apartments), YD-D (Mixed TOD), YD-E (Origin Plaza).
? Concept Guidelines: FAR 1.2?2.8, Height 18?45 m, Building Coverage ?35%.
? Public Anchor: Origin Stele + Gaokao Gate (Tsinghuayuan Station) + Wudaokou TOD + RCK-02 Kiosk.
? Mobility: Slow mobility density 29.6 m/ha, length 3,092 m.

Dazhongsi AI Cluster (72 ha)

? Blocks: DZ-A (Green Compute), DZ-B (Industry Engine), DZ-C (Commercial), DZ-D (Living), DZ-E (Quadrant Park).
? Concept Guidelines: FAR 1.8?3.6, Height 24?60 m, Building Coverage ?35%.
? Public Anchor: Clock of Compute + Dazhongsi Smart Station 4-Quadrant Concourse + RCK-03 Kiosk.
? Mobility: Slow mobility density 31.7 m/ha, length 2,283 m.

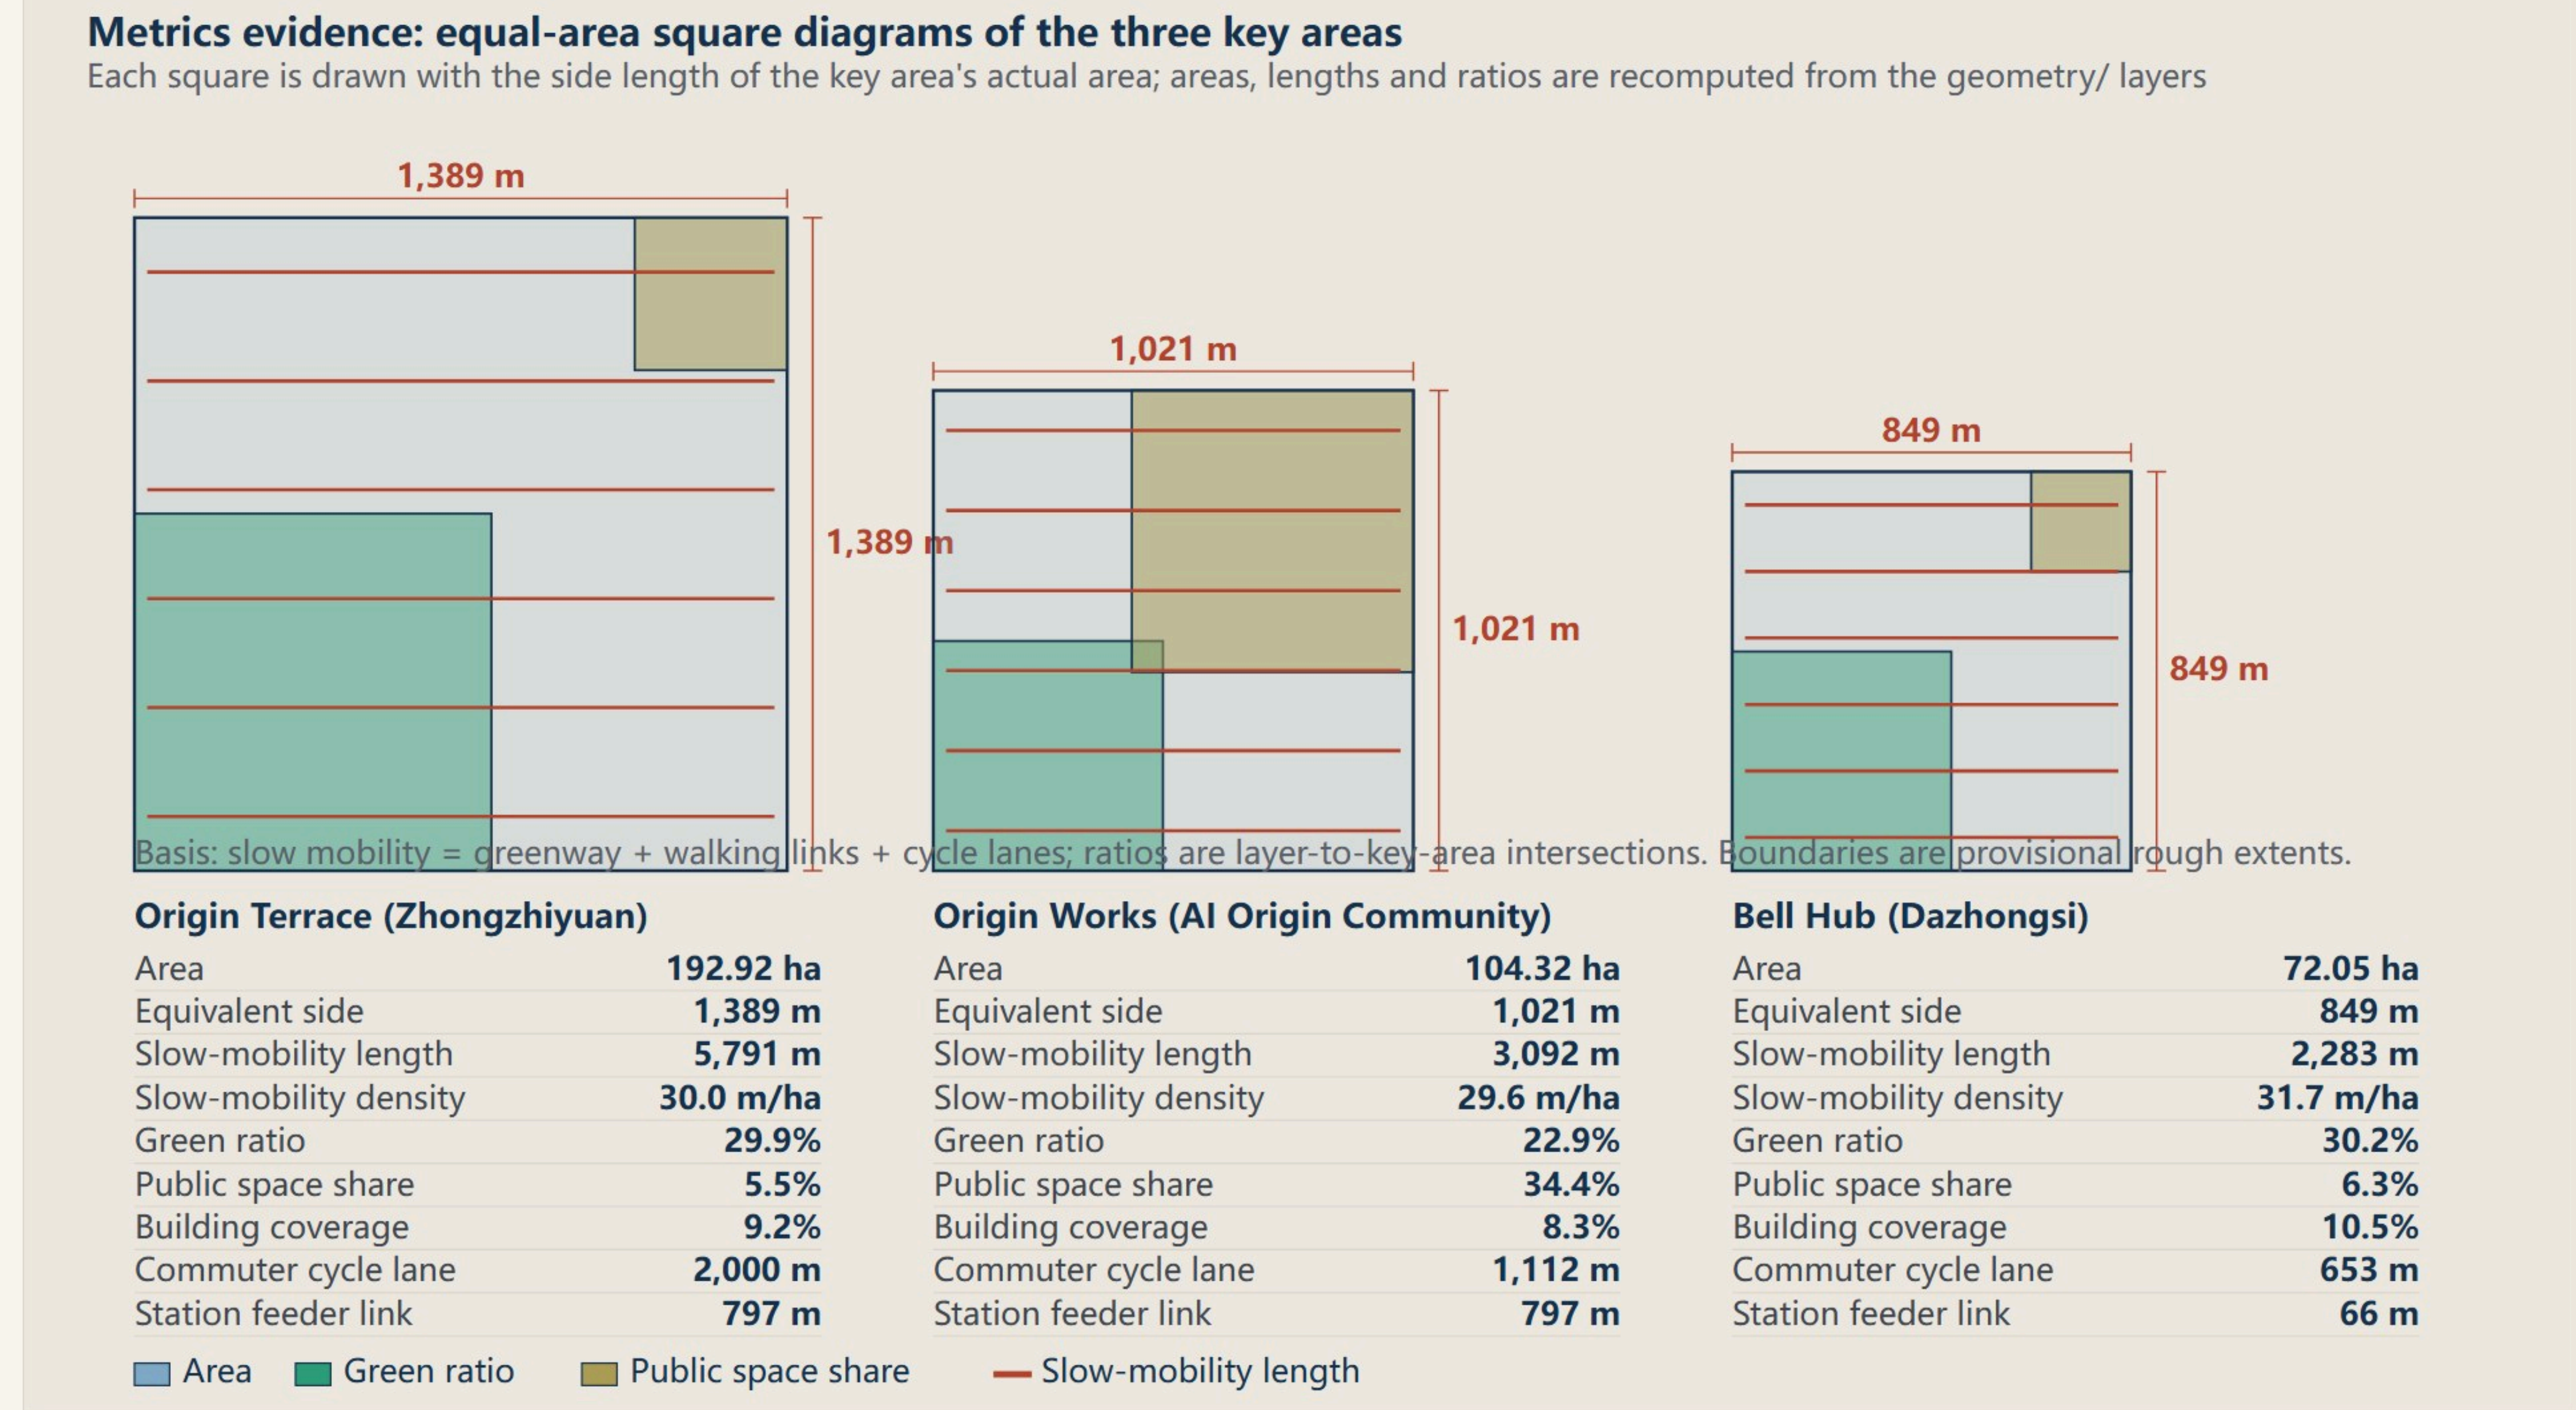

Figure 05: Recomputed Metrics and Evidence Chain

- ? 33 Core Metrics: 30 known metrics recomputed deterministically; 3 statutory controls kept strictly 'unknown'.
- ? Report Card Kiosks (RCK): Footprint 3.96 m², 1800x2200x2800 mm, dual-mode operation with physical fallback.
- ? Full Gate Validation: All 4 verification gates and 30 universal property invariants 100% PASSED.
